

Product Security 2020 Survey Results

ARCHIMEDES
CENTER FOR MEDICAL
DEVICE SECURITY

ABOUT

There is a significant lack of data for how product security is organized in the medical device security industry. To fill the information gap, Archimedes and Hillrom have partnered to distribute an anonymous survey. The purpose of this survey was to gain a better understanding of how the medical device security industry is evolving and how product security teams are organized.

We hope you find this information useful.
